The operations of multiplication and division have many different underlying structures and can be applied in a wealth of contexts. Fluency with multiplication facts (times tables) is vital for success in mathematics, particularly in algebra. As such, these facts must be understood, memorised and

Multiplication - Division: Teaching for Mastery in Primary

Multiplication-Fact Mastery The National Council of Teachers of Mathematics (NCTM) makes a strong argument for computational fluency. In fact, Principles and Standards for School Mathematics states, "Developing fluency requires a balance and connection between conceptual understanding and computational proficiency" (NCTM 2000, p. 35). Rote memorization of basic facts is not fluency ...

Multiplication Mastery Madness! (If you haven't noticed, along with my color coding obsession, I also have a small affinity for alliterative titles.) The past few weeks, we have been hitting multiplication hard! Our school is focusing a lot on mathematical computational fluency, so it is a main focus area for us this year (and last year). While I firmly believe that computational fluency is a ...
