group filial therapy the pdf

In Group Filial Therapy (GFT), therapists train parents to conduct play sessions with their own children to help meet children's therapeutic needs, and to transfer appropriate skills to family life. Based on parents' application of Child-Centred Play Therapy, taught and supervised by filial therapists, this evidence-based method is highly effective for working with families from diverse backgrounds and locations.

Group Filial Therapy (ebook) by Louise Guerney - ebooks.com

publishing a manual, Group Filial Therapy, outlining this method which includes all of the essential features of FT in a 20 week programme (Guerney & Ryan, expected 2012). Groups conducted with this model are typically very effective in producing long- term change for children, parents, and families, and would be my preferred mode of FT when possible. The forthcoming Guerney & Ryan book will ...

Filial Therapy: What Every Play Therapist Should Know

Description : In Group Filial Therapy (GFT), therapists train parents to conduct play sessions with their own children to help meet children's therapeutic needs, and to transfer appropriate skills to family life. Based on parents' application of Child-Centred Play Therapy, taught and supervised by filial therapists, this evidence-based method is highly effective for working with families from diverse backgrounds and locations. 1997). - files.eric.ed.gov

Filial Therapy was created by Drs. Bernard and Louise Gurney. It is a psychoeducational intervention in which a therapist trains parents or other caregivers to hold special child-centered play sessions with their own children. Parents learn beginning expressive and listening play therapy skills and effective limit setting techniques.
